DEDICATION

We, the class of 2005, personally dedicate our yearbook to Dr. A. Keith Carreiro. A fortunate few have had the opportunity to befriend a teacher like Dr. C. Valuing him not only for his brilliant mind, but also for his charismatic, empathetic character. He is an easygoing man who is always there for his students. Whether you have a problem that involves high school, college, family, or friends – he is there to help in any way possible.

Dr. C is a man who is as passionate about teaching as he is about life. He motivates and supports us like no one ever has before, just by believing in us. Dr. C is a prime example of eudaemonia. He is the type of person that lives each day to the fullest. No matter what happens throughout the week, Dr. C always manages a smile, or a word of encouragement. He is always urging us to follow our dreams by telling us that we can be anyone or do anything, as long as we do not give up.

Every time you step into his classroom you are provided with many opportunities to learn about things that really matter. He teaches us not only about literature, but, more importantly, about life. His teaching style differs from many because he respects us first and foremost as people, not just students. Dr. C allows us the freedom to express ourselves through various outlets. He does not put limits on his student's creativity. Sometimes even he underestimates how much he means to the students. Although he may not think so, we heard every word.

We, the senior class, would like to thank Dr. C for guiding us through our last year. In the words of Yoda, "Mind what you have learned. Save you it can." The lessons you have taught us will last a lifetime and we will never forget you.

"Dr. C. has not only been a teacher to his 'learners,' but has sparked a curiosity that will generate a lifetime of enlightenment. He has charged young minds with a vigorous energy; the thirst for a greater sip from the goblet of life. He's electrifying!"
-Josh Cheney

"Doc's endless encouragement and constant motivation have not only made me a better student but have helped me to follow the true teachings of following my dreams. As a teacher and a friend, Doc's guidance is forever."
-Jessica Desmarais

"Dr. C. is a man who you can have an intellectual conversation with, and at the end, you feel like a person of worth, instead of just another student."
-Heather Peixoto

"He's the most intelligent man I have ever met."
-Meg Cabral

There were choruses and sing-a-longs
That unspoken feeling of knowing
That right now is all that matters
All the nights we stayed up talking
Listening to 80's songs,
And quoting lines from all the movies that we loved
It still brings a smile to my face.
I guess when it comes down to it...
Being grown up isn't half as fun as growing up
These are the best days of our lives.
The only thing that matters is just following your heart,
and eventually you'll finally get it right
Breaking into hotel swimming pools
and wreaking havoc on our world.
Hanging out at truck stops just to pass the time.
The blacktop singing me to sleep.
Lighting fireworks in parking lots
illuminate the blackest nights.
Cherry cokes under the moonlit summer sky,
2015 Riverside, it's time to say goodbye.
Get on the bus, it's time to go.
Being grown up isn't half as fun as growing up
These are the best days of our lives.
The only thing that matters is just following your heart
and eventually you'll finally get it right.

CLASS OF 20

FRESHMAN YEAR

Our freshman year is an interesting experience. We enter the school to find no carpets on the floors and seniors standing outside of the auditorium barking at us on our first day. What a way to start our high school experience. September 11th, 2001 is a day that we will always remember. We have our first class elections and **Dave Gariepy** is named our President, a title he will hold all four years of high school. **Amanda Machado** is the Vice-President, **Ashley Lachance** is our Secretary, and **Lindsey Banaszek** is the Treasurer. Our volleyball team wins the state championship which is especially exciting since three members of our class: **Amanda Machado**, **Jasmine Bonanca**, and **Emilee Lane** are on the team. We will never look at D'Angelo's the same way after an outbreak of Hepatitis hits the school. We attend our first Thanksgiving Pep Rally and find a banner hanging over our seats that says "Freshmeat." The football team wins the Thanksgiving Day Game, 31-0 and the New England Patriots beat the St. Louis Rams to win the Super Bowl. There are a lot of talks about budget cuts and possibilities about doing away with extracurricular activities and even spring sports but everything works out in the end. Before we know it we are taking finals and looking forward to our sophomore year...

Sophomore year has its ups and downs. We are excited to start the year since we are no longer

SOPHOMORE YEAR

freshmen and we are greeted with a completely new faculty. We lose the Thanksgiving Day game and our fall production is The Wizard of Oz with **Dan Gormally** as the Tin Man and **Jess Desmarais** as Glinda. Our class officers are changed a lot with **Josh Hodosh** as our new Vice-President, **Annie Lynch** as the new Secretary, and **Alanna Dias** as our Treasurer. A blizzard hits our town hard right before February vacation ruining a lot of people's plans to get away. During the same week, the Station nightclub fire in West Warwick, RI claims 100 lives. Our competition piece, The Laramie Project, causes a lot of controversy in town and our country goes to war against Iraq. It is totally awesome when **Amanda Machado** gets her comment aired on Channel One News and gets a free cell phone. **Josh Cheney** plays Romeo in our spring production of Romeo and Juliet. Sophomore year is over in a snap and junior year is on its way...

JUNIOR YEAR

accomplishment for our boys' soccer team who had only won five games total in our first two years of high school. Both the field hockey and volleyball teams win the South Coast Conference championship and the volleyball team makes it to the state finals. Our fall production is Charlie and the Chocolate Factory. The Patriots win the Super Bowl for the second time in three years. We get a day off in January because it is too cold outside and both our girls' and boys' basketball teams have amazing seasons. Two of our class officers change, **Ben Emard** is elected as Vice-President and **Dan Gormally** as Treasurer. Our competition piece, Metamorphoses, does phenomenal, winning the State level and representing Massachusetts at the regional competition in Maine. A lot of us are heartbroken when we hear about the passing of Mr. Usher, who many of us had for history freshman year. Mr. Santos retires as our principal and many of us attend our first prom at the Venus. The summer arrives and we bask in the idea that we will soon be seniors...

Finally, it's here! After three years of waiting, we are seniors. Unfortunately it is our most stressful year between college applications, SATs, and scholarships. Mrs. Ragland is our new assistant principal and Mr. McCann takes over as principal of the school. Sides are chosen when the Red

SENIOR YEAR

Sox and the Yankees go head to head in the ALCS and we all stay up until 2 am for every nail-biting moment of the series. Red Sox fans are rewarded however, with an amazing comeback against the Yankees and a World Series championship. Our class officers are the same as last year and the girls' volleyball team makes it to the state final game for the second year in a row. John Kerry loses the presidential election to President Bush. We win Spirit Wars but our football team loses in the "Mudbowl." **Ben Emard** is our Homecoming King and **Jessalyn Hyland** is Homecoming Queen. Our senior skit is hilarious. The fall play is The Lion, the Witch, and the Wardrobe. We get hit by the Blizzard of 2005 (30 inches of snow) and we finally have snow days. An earthquake and tsunami in Southeast Asia take more lives than any natural disaster before it and we donate anything that we can to help. As our senior year nears the end, we look forward to the Bay Queen, Class Night, Prom at Johnson and Wales, and Graduation.

Amanda Machado – Drama, flings, girls and boys, broken hearts, tears and joys, wasted time, countless regrets, skipping class, stupid bets, looking back it's been a rush, from the hours of homework to your first real crush, setting the pace for all to come, but always wishing it never were done.

Vinny Martin – Sometimes it was the best of times...sometimes it was the worst of times...but it wasn't too bad overall.

Megan McCaughey – It is the best of times and it is the worst of times...but in the end it's all worth it.

Elise McLearn – Four years of constant turmoil and drama, but left with many memories.

Benjamin McMullen – A million daydreams.

Mike Monte – A learning experience.

Jessica Neales – The quickest four years of my life.

Shaina Neto – High school was absolutely unreal.

Christopher Ormerod – A place to grow old and stay young at the same time.

Danielle Parent – High school is like a summary of life, it takes some good and some bad and shapes you into who you are.

Greg Pavao – You think you know, but you have no idea.

Tiffany Pavao – Four years of complete chaos and drama!

Heather Peixoto – High school is full of drama; but in the end, it is all fun.

Christopher Pelton – High school is like Al hitting you, it gets annoying but you wouldn't know what to do without it.

Amanda Pereira – Memorable: the good, the bad, the unforgettable!

Jeremy Pineau – Waking up early to sleep for six hours.

Lauren Pollard – An experience I'll never forget.

Thomas Ponte – Fun 'till Mrs. Ragland came.

Rachel Reece – I've had a lot of fun, but it is time to go.

Kristen Reynolds – First two years of excitement and last two years of hell and troublemaking.

Stephen Roberts – An enormous practical joke that only the students are in on.

Rebecca Robinson – It was the best of times, it was the worst of times, but all in all, it was a great time!

Dana Sabra – The longest, most chaotic, four years of my life.

Eric Salvas – A place to hang out with my friends and learn a little at the same time.

Laura Sampson – Learning something new, whether it's by a mistake or from a book..

Nicholas Serdynski – A place you don't want to be, but you go and realize it's alright.

Meaghan Sheedy – You can get all A's but still flunk at life.

Mike Silvia – A time to grow old, and stay young at the same time.

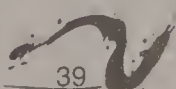

Arielle Summers – High school was like a Red Sox Playoff Season, it had its ups and downs.

Lisa Thomas – High school is the place you hate most while you're here, but you'll probably miss the most when you leave.

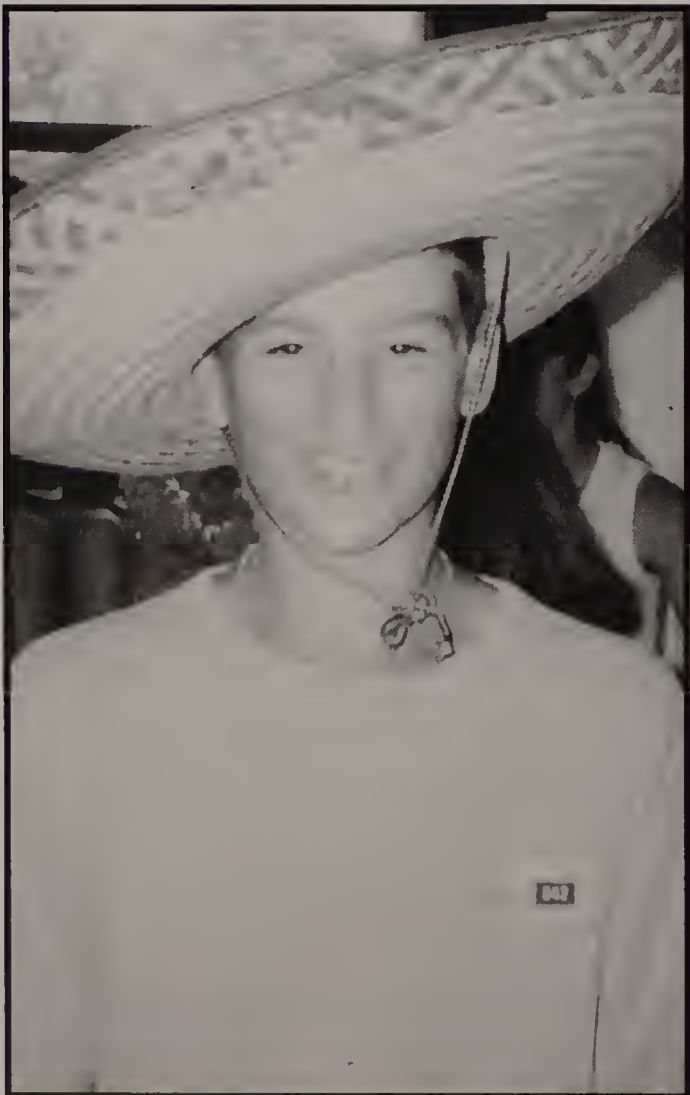

Kevin White – It's only good for friends.

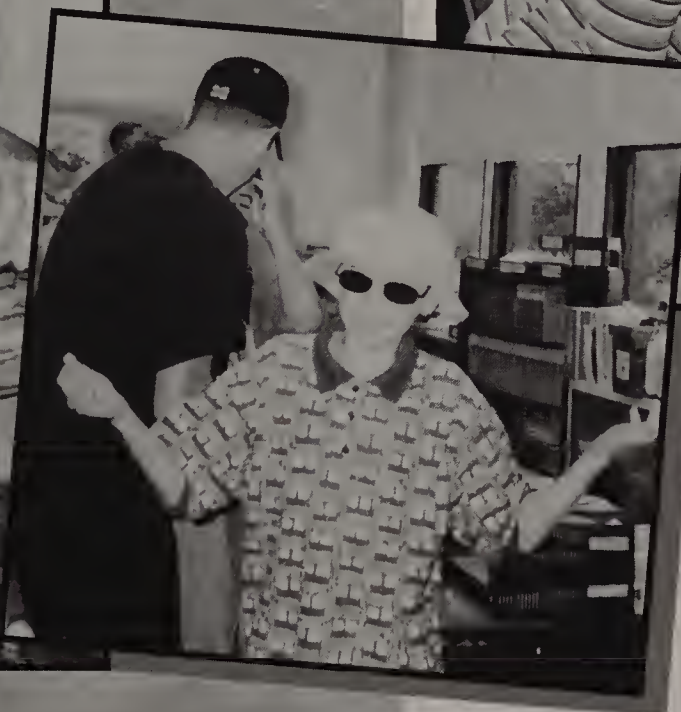

Gregory Whiting – A little better than being in prison!

Heather Woodruff – Somewhere between the laughter and the tears I realized that the most important part of high school was my friends and I wouldn't be where I am today without them and all the memories they have given me.

GYMNASTICS

Our gymnastics team (nicknamed Casonk because girls from Case and Seekonk compete together) had a rebuilding year but still remained competitive. Eight of the eleven team members were competing for the first time. Although they didn't win many meets they often exceeded their expectations in the meets they competed in. MVP of the team was senior Ashley Munroe. Case girls competing were Chelsea Foltz, Alli Mastrocola, Asley Bryant, Kali Nicolan, Megan Chapman, and for our Case All-Around, Kayla Reposa.

BASKETBALL

The Cardinals started the season with a tough 0-6 stretch against the brunt of their SCC schedule. A pre-season injury to sophomore swingman David Hall slowed down the offense and forced first year coach Keith Holubesco to employ a seven man rotation. Although the Cardinals were still acclimating themselves to a new system, they managed to make all but one of the six losses extremely close games. Once the Cardinals got used to the new system, however, the results were telling. Going 8-6 the rest of the way, the Cardinals finished two games shy of their season goal. Two Thousand

congrats

To The Class of 2005:

You have reached a milestone in your life as you view the future beyond High School. As you look to the months and years ahead, you will be faced with many challenges and decisions. Your education earned in Swansea has been geared to prepare you to face those challenges and decisions. The School Department has focused on what will be significant contributions to your ability to compete in the world of post-secondary education, the work place or whatever career paths you choose.

The entire staff of the Swansea Schools wishes you well as you begin your future. You have met and interacted with teachers, bus drivers, coaches, advisors, lunch staff, nurses, secretaries, teacher assistants, and administrators who are all part of what makes the Swansea Schools special. All of these staff members are proud of you and your accomplishments and wish you well as you leave Case.

On a personal note, I am confident that we have prepared you well and have given you memories that will last until at least until your 25th reunion!

Sincerely,
Stephan C. Flanagan
Superintendent of Schools

Dear Class of 2005:

The first book I read in 2005 was a suspense novel concerning a mysterious Renaissance document and a group of Princeton seniors who uncover its secret code. In *The Rule of Four*, authors Ian Caldwell and Dustin Thomason allude to Robert Browning's 1855 poem "Andrea del Sarto." Not being familiar with that work, I used the Internet to learn about this Victorian work. Victorianweb.com states "Browning shows us a failed hero...who has developed a

successful technique and has reached his limit, but, in the process, has lost his inspiration."

In the poem is found the line "I do what many dream of, all their lives." I was struck with the powerful simplicity that economized my journey at Joseph Case High School: student – graduate – teacher – assistant principal – principal."

Joseph Case High School is a small secondary institution committed to helping students realize their diverse potentials through a personalized educational experience. My high school teachers laid the foundation for me to succeed in college, graduate school and the work force. I hope that one day each graduate of the Class of 2005 finds Browning's words to be true for them. May you remain inspired to reach all of the goals that you set in your high school and post-secondary years.

Brian McCann
Principal
Class of 1980

To the Class of 2005:

True educators never stop learning, and I would like to take a moment to thank this graduating class for teaching me several humbling lessons.

Lesson #1 - I will never allow anyone to talk me into blindfolding students for a pep rally.

Lesson #2 - I will try to refrain from wearing a sweatshirt to future Homecoming dances.

Lesson #3 - I will think twice before I dance at another semi-formal.

Lesson #4 - I will always read the sports section in *The Spectator* and *The Herald News*.

Lesson #5 - I will work at becoming more culturally sensitive to delicacies like *turkey slop* and *fun fish*.

Lesson #6 - I will never again accept the delivery of a large holiday gift with a student hidden inside. You have made my first year at Joseph Case High School most memorable. I wish you the best in your future endeavors and I encourage you to remain in touch. Best of luck!

Sincerely,

Amanda,
You have made us so happy and proud. At your pre-school graduation we were so proud of our "little lady" - you were cute smart, self-confident, friendly and a real "people-person".

As you graduate from high school and prepare for a career in early childhood education we are ever prouder of the beautiful young woman you have become. You are smart, hardworking, caring, friendly and a natural with little kids - just like Vavó. Guess Grandma didn't just spoil you. She taught you well and passed on her love for children and talent for caring for them. She is looking down on you from heaven, gleaming with joy and pride.

Always be proud of yourself and your accomplishments, even the ones that seem small. Success is not measured in dollars nor by your position. It is measured by what you have done with the gifts and talents given to you to make a difference in the world. So use them wisely and generously to make a difference in someone's life - be a great teacher!

Congratulations and Best Wishes.

Love You Lots! Love You Always!
Mom & Dad

For your first day of kindergarten you ran to the door,
The world was waiting for you to explore...

Through the years you have tried many things,
Some lasted long, others just flings...

Baseball, soccer, scouting and such,
But music of course was your magic touch...

A Music Ed. major, you chose to pursue,
or maybe perhaps it may have chose you...

It will put to the test your leadership skills,
But life is nothing if it doesn't have hills...

We're sure you'll do wonderful as you always do,
As pride in oneself is a very good skill...

The music department you chose to explore,
Has guided you along the path to your future...

And now here we are, an end - a beginning,
A chance to discover, a world to uncover...

As you come to a close in the chapters of grade school, please bring with you these essential tools, a notebook to continue the chapters from here, and a pencil to write them to read year after year...

Three things we give as parents,
LOVE, GUIDANCE, AND WINGS.

You've earned your wings, so fly high and strong knowing we will always be the wind below.

Love forever and always,
Mom, Dad, Dustin, Nicole, Luke, & Olivia

P.S. For every student there should be, at least one teacher to inspire thee.

In my daughter's eyes I am a hero
I am strong and wise and I know no fear
But the truth is plain to see
She was sent to rescue me
I see who I wanna be
In my daughter's eyes

In my daughter's eyes everyone is equal
Darkness turns to light and the world is at peace
This miracle God gave to me gives me strength when I am weak
I find reason to believe
In my daughter's eyes

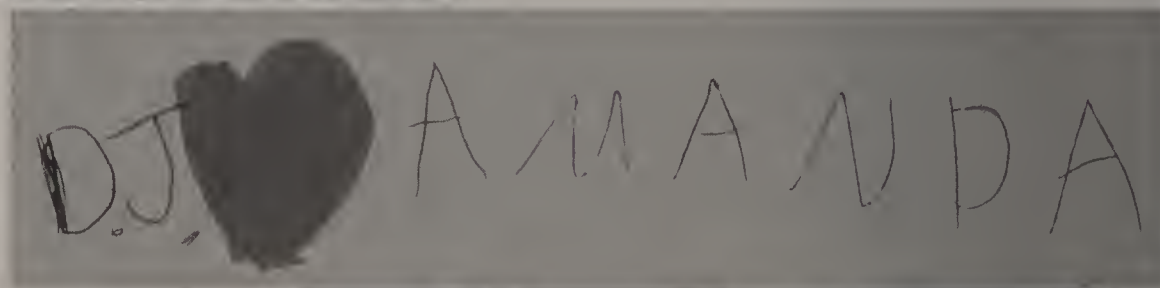

And when she wraps her hand around my finger
Oh it puts a smile in my heart
Everything becomes a little clearer
I realize what life is all about

It's hangin' on when your heart has had enough
It's giving more when you feel like giving up
I've seen the light
It's in my daughter's eyes

In my daughter's eyes I can see the future
A reflection of who I am and what will be
Though she'll grow and someday leave
Maybe raise a family
When I'm gone I hope you see how happy she made me
For I'll be there
In my daughter's eyes

Mac,
You've shown me so many times that when you put your mind to it you can accomplish anything. I'm so proud of you. Thanks for all the special and awesome memories. I know we will have many more. I love you. Dad.
Ruff Ruff Grrr!!!

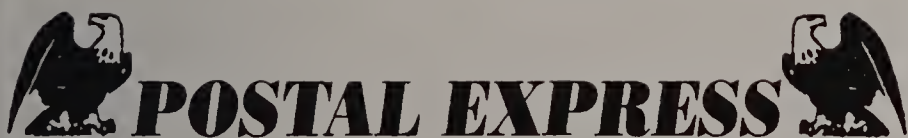

Arielle,

Some people have the "it" factor and you definitely have "it". Best wishes and congratulations. Remember to always follow your dreams.

CONGRATULATIONS GRADUATES!!!

2005 Yearbook Staff

Editors' Page

After sacrificing countless bubbles and lunch periods, remaining after school until the sun has gone down, and spending innumerable weekends in the Yearbook Office, the 2005 edition of the Chief is finally complete!

The publication of The Chief would have been impossible were it not for the hard work and dedication of the yearbook staff. Many of us have spent endless summer hours working to collect ads from local businesses. Others have given up their time to help work on layouts to meet deadlines. However, there were several other key players in the creation of the yearbook. Chestnut Hill Studios, which provided us with a

majority of the pictures we used in the yearbook. Mr. Garnett, the Jostens representative who

paid regular visits to the Yearbook Office to offer us advice on how to improve our yearbook. And finally, Mr. Noble, our Yearbook Advisor, who has forfeited his time and his money to keep our snack supply well stocked. He has encouraged us to experiment with our new ideas for the yearbook and reminded us that trying to please everyone is an impossible task.

We will never be able to return to the years of our high school lives, but we will always be able to relive the memories by

thumbing through the pages of our yearbook.

- Alanna Dias, Amanda Machado, Danielle Parent, Arielle Summers

Joseph Case High School's first yearbook was published in 1945 and was titled, The Record Book. However, many students were displeased with the name and decided to change it. In honor of Swansea's Native American Heritage, the yearbook's name became The Chief. To this day, the name remains as a remembrance of our history.

A decorative border surrounds the page, featuring black graduation caps with tassels and grey streamers. The caps are positioned at the top, bottom, and sides, with streamers weaving between them.
